# Manual Slide Bug Blocking Mesh Doors

---

## **Product Advantages**

- Heavy 11 oz pre-coated woven vinyl coated mesh polyester screen.
- Resistant to all ultraviolet rays and is rot, tear and mildew resistant.
- 17 X 11 polyester scrim provides small openings difficult for insects to penetrate.
- Shade screen factor improvement to 65% helps to keep non air conditioned plant space cooler longer.
- 18 oz vinyl is used on the leading-edge, valance and floor sweep to improve wear and durability.
- The valance mounts to the building rather than to the curtain track, improving stability and a more rigid mount.
- A full length Fiberglass tube stiffens the leading edge of the curtain to ensure sealing of the curtain to the door jamb.
- Stainless steel wall bracket with keyhole slot fastens the door to jamb to prevent wind blow out. A simple lift and up motion is used to engage or disengage the door.
- The mesh curtain permanently attaches to one side of the doors vertical edge and closes to the opposite side. Screen compresses to small bundle when retracted.
- The curtain glides side-to-side on easy to install track and dual wheeled trolley roller system.
- Top valance panels, and bottom floor sweep form a complete seal to provide near total protection from insects.

## **Options Available**

- Seven colors to choose from: blue, spruce green, almond, red, yellow, black and gray.
- Wind or draft tie downs in two different styles.
- Stainless still center cam lock assembly extends a galvanized steel pin into the floor to prevent the door from bowing with wind load

## **Product Benefits**

- 65% Shade factor-helps keep the facility cooler longer.
- Significantly reduces heat from sun while allowing light into work areas.
- Keeps out unwanted pests, birds and intruders.
- Improves security.
- Five-year warranty.
- Lifetime warranty on all mounting hardware.
- Improves building appearance.
- Allows fresh air to flow through for comfort and productivity.
- Draw screen into use when needed; glides out of the way when not.
- Standard sizes fit most door openings.
