## Materials & Construction

Goff's Original Curtain Walls are constructed with a combination of some of the finest industrial vinyls available. The upper and lower opaque, PVC sections are 14 oz. per square yard, reinforced with a polyester 9 x 9 x 1300 denier weft inserted scrim which is laminated into the fabric to give the curtain a high tear and tensile strength without sacrificing flexibility. Curtains are flame retardant meeting NFPA 701 and California State Fire Marshall Standard.
